CAREER SUMMARY

Passionate React.js developer with experience in building dynamic web applications. I've grown from mastering frontend development with React and Redux to full-stack capabilities using Next.js, Zod, and Prisma. My journey is marked by continuous learning, strong UI/UX design skills in Figma, and a commitment to Agile methodologies in collaborative environments.

TECHNICAL PROFICIENCY

Frontend Development: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend Development (Learning): Node.js, Express.js, MongoDB

State Management: Redux

Full-Stack Development: Next.js, Zod (Validation), Prisma (ORM)

UI/UX Design: Figma

Version Control: Git, GitHub

Tools & Collaboration: Trello, Slack, Agile Methodologies

EXPERIENCE

Social Media Manager
Digipline Digital Agency, Australia
Years: 1

- Managed and grew social media presence across platforms, driving increased engagement and brand visibility for clients.

- Developed and executed targeted social media campaigns, resulting in an increase in follower growth and customer interaction.

- Analyzed campaign performance using analytics tools, providing actionable insights that optimized content strategies.

- Collaborated with cross-functional teams to align social media efforts with overall marketing goals.

EDUCATION

+2 (Physical Science)
United Academy, Kumaripati
Jan 2017 – Dec 2018

Bachelor's Degree (B.Sc. (Hons). Computing)
Softwarica College of IT and E-commerce/ Coventry University, Dillibazar
March 2021 – March 2023

PROJECTS

PodiumLive (as an assignment)
Developed a social audio app allowing users to host and participate in live audio discussions. Focused on real-time communication, user authentication, and a seamless UI/UX design.\\

E-commerce Website for a firm (In-development)
Built a fully functional e-commerce platform with features like a shopping cart, and an admin dashboard. Implemented a blog section and ensured a fully responsive design.

Weather App
with OpenWeatherMap API
Developed a weather app that dynamically fetches and displays real-time weather information, featuring responsive design and API integration.

News App
with News API
Created a news application that aggregates and displays the latest news articles. Integrated with an external API for live updates and implemented state management with Redux.

Portfolio Website
Designed and developed a personal portfolio website to showcase my work and skills. Focused on responsive design and clean, accessible code.
